BEDROOM

AN UNINTERESTING bedroom was turned into an inviting cocoon by using deep colors and textural surfaces. Rich navys and periwinkle blues contrast with crisp whites to create a clean, dramatic inviting environment to sleep and lounge. Our result is beautiful, cozy, compact and very practical!

CREATED A clean, modern home centered around maximizing the panoramic ocean views. This was a departure from what the homeowners were accustomed to. They wanted no-fuss finishes that satisfied his contemporary aesthetic and her warm sensibility. Our intent was to bring life and color to the foundation and structure that was already being built at the time of our hire.

CONTEMPORIZE A Mediterranean style home through the use of color, materials, and new up to date furnishings, and redesign the main TV / fireplace wall. The most significant challenge in the great room was to integrate an off-center firebox and a recessed TV niche into a cohesive focal-wall, without impacting the existing surrounding structural elements.
